

Bed Bug Encasements

Covering your mattress and box spring in a high-quality encasement that is designed to control bed bugs is a good preventive measure for keeping bed bugs out of your sleeping area.

Encasements make it easier to inspect the mattress or box spring, and remove bed bugs from the surface.

Designed to provide complete protection against allergens, dust mites, and bed bugs Encasements eliminate bed bug entry and escape points. They are also bite proof for complete mattress or box spring protection, and a healthy, allergy-free sleep zone.

Encasements also provide moisture protection while still allowing breathability. It is also helpful in the management of allergies, eczema, or asthma due to the exposure to dust mites and allergens in the mattress.

Encasements benefits:

- Keep bed bugs from invading or escaping
- Chemical free
- Easy to use and install
- Cool and comfortable to sleep on
- Helps prevent re-infestations
- Aids in early detection of bed bugs
